Narrative descriptions (this might be things like project descriptions, or maybe an "about me" blurb)	Style or info to include in the description (there are general, short deescription of what the narrative paragraph(s) will include. If you wanted to annotate each of your poetry samples, you might write, "poetry annotation #1" in the first column/row, and "Composer's statement describing inspiration and poetry style showcased in this poem" under this column.
